EDUCATION

New Jersey Institute of Technology
Bachelor of Science Computer Science

Newark, NJ
September 2025 – May 2028

County College of Morris
Associates of Science Computer Science

Randolph, NJ
September 2023 – May 2025

Skills

- **Languages :** Java, Python, TypeScript, JavaScript, SQL, HTML, CSS
- **Libraries/Frameworks:** React.js, Next.js, FastAPI, Tailwind CSS, Material UI, Bootstrap, Pandas, NumPy
- **Tools:** Git, GitHub, GitLab, Docker, Tableau, Excel

WORK EXPERIENCE

SciTec, Princeton, NJ

May 2026 - Present

Software Engineer Intern

- Developed and enhanced features for an internal web application using React, Next.js, TypeScript, Python, and FastAPI, delivering scalable solutions that improved internal business workflows.
- Designed and implemented a department-specific web page using React, Material UI, and REST APIs, streamlining daily operations and improving efficiency for internal users.
- Collaborated in an Agile development environment by participating in daily stand-ups, weekly sprints, and code reviews while creating test cases to validate new features and maintain application quality.

InShore Technologies, Newark, NJ

June 2025 - August 2025

IT Intern

- Configured laptops and joined them to the appropriate domain, enabling secure access to network resources and user profiles
- Diagnosed and repaired hardware issues on desktops and laptops, including screen replacements, batteries, motherboards, keyboard repairs, frame adjustments, and other component-level fixes

County College of Morris, Randolph, NJ

October 2024 - May 2025

I.T. Help Desk

- Provided troubleshooting support for campus technology, including websites, WiFi, printers, and scanners, ensuring minimal downtime and efficient resolution of issues.
- Developed and deployed Python automation scripts to streamline common IT Help Desk tasks, improving efficiency for myself and peers in daily operations such as tracking service requests, logging user support activities, and simplifying repetitive workflows.

LEADERSHIP & EXTRACURRICULAR EXPERIENCE

CyberGames Competition -

March 2025

Team Leader

- Led a collegiate team in a national cybersecurity competition, coordinating defense strategies, incident response, and system hardening against live red-team attacks.
- Guided teammates in network defense using tools such as Wireshark for packet analysis, along with log review and intrusion detection techniques to strengthen team performance.

DataFest Competition -

April 2025

Team Leader

- Directed a data analysis team in the DataFest Competition, focusing on uncovering trends and microtrends
- Utilized Python (NumPy, pandas), R, Excel, and Tableau to clean, filter, and analyze large datasets.
- Created interactive Tableau dashboards to effectively communicate key insights to judges and stakeholders.
- Awarded 1st place for Best Visualizations for delivering the most impactful and data storytelling solution.
